PROFILE

I possess experience in web development, UX/UI design, and mobile app development. My analytical approach to problem-solving and strong communication skills enable effective teamwork and innovative solutions. Eager to contribute to impactful projects, I aim to shape the future of technology through continuous learning and innovation.

PROFESSIONAL EXPERIENCE

Computer Science and English Teacher   01/2024 – 03/2024
Instituto Carlos Gómez 🔗   San Luis Potosí, Mexico
- **Technological Skill Building:** Highlighted critical thinking and innovative approaches to build foundational tech skills, aiming to solve real-life problems with the technology learned in class.
- **Communication Enhancement:** Improved students' abilities to understand and express ideas effectively by studying a vast vocabulary and examining real-life examples.
- **Strategic Planning Using SCRUM Methodology:** Implemented Agile principles to plan and execute educational strategies, ensuring flexibility, responsiveness, and continuous improvement in teaching methods.

Technical Support   04/2023 – 12/2023
Matraka Experiential Marketing 🔗   San Luis Potosi, Mexico
- **Seamless Production Support:** Provided essential technical assistance and troubleshooting to guarantee uninterrupted operations.
- **Issue Resolution & Productivity:** Addressed and resolved hardware/software issues to minimize downtime and enhance productivity.
- **Customer Service Excellence:** Delivered exceptional customer service, quickly resolving personnel inquiries to ensure satisfaction and continuity.

Web Developer   10/2022 – 04/2023
AIA Partners 🔗   San Luis Potosi, Mexico
- **Back-End Infrastructure Planning:** Aimed to build a solid backend infrastructure for the project, optimizing database queries to enhance platform reliability and efficiency.
- **Back-End Infrastructure Development:** Concentrated on building a scalable and secure backend system to facilitate efficient data management and seamless front-end integration.
- **Impact on Growth:** Initiatives aimed to improve online visibility and engagement, supporting the company's growth in the competitive real estate market.

PROJECTS

Firedots 🔗   10/2023
NASA International Space Apps Challenge 2023 - Global Nominee
- **Design Leadership and Front-End Oversight:** I led the design process, ensuring an intuitive user interface and overseeing front-end development.
- **Engaging Multimedia:** I created captivating multimedia content to promote our wildfire detection mobile app's innovative approach.

EDUCATION

Intelligent Systems Engineering   2018 – 2023
Universidad Autónoma de San Luis Potosí 🔗   San Luis Potosi, Mexico
- **Relevant Coursework:** Web Development, UI/UX, Database design and management.
